*\*As a result of the Utah Construction Trades Licensing Act Rule, a B100 Contractor is able to perform the same work as an E100 Contractor.*

*"General Engineering Contractor" means a person licensed under this chapter as a general engineering contractor qualified by education, training, experience, and knowledge to perform construction of fixed works in any of the following: irrigation, drainage, water, power, water supply, flood control, inland waterways, harbors, railroads, highways, tunnels, airports and runways, sewers and bridges, refineries, pipelines, chemical and industrial plants requiring specialized engineering knowledge and skill, piers, and foundations, or any of the components of those works.*

***A General Engineering Contractor may not perform construction of structures built primarily for the support, shelter, and enclosure of persons, animals, and chattels.***

*For any questions, comments or concerns regarding the Utah Construction Trades Licensing Act Rule, please contact the Utah Department of Professional Licensing at 801-530-6720*
