

## OGDEN CITY ENGINEERING 2025 REQUIREMENTS FOR WATER LATERAL REPLACEMENT

When a water lateral (water service from house to meter) is replaced, Ogden City requires that the meter box be replaced, and that a Dual-Check Valve be installed on the house side of the meter.

The Dual-Check Valve can be purchased at most plumbing supply locations (see attached document "Dual-Check Valve Notes").

Ogden City requires the following meter box to be used in all new installations and replacement situations:

**RAVEN - PLASTIC METER BOX TAPERED 16X24X36  
RMB-R-T-16-24-36**

Currently this meter box can be found at the following local suppliers; please contact them for pricing and availability:

### **Core & Main**

2457 S 1620 West  
Ogden, UT 84401  
801-621-6668
